

SECTION CHANGES

Constructed in zincated sheet with reduction of the square or rectangular section to the circular section.

By request we supply the square or rectangular section with a frame in flat iron or zincated profile.

Available in the models:
smooth, cuffed or flanged.
Available by request in stainless steel.

SHAPED REDUCTION CONES

Constructed in zincated sheet,
with border on the two sides.

Available in the versions:
smooth, cuffed, flanged.

By request they can be supplied in
smooth version, arranged for the flex
and/or steel pipe.
