FILTER MOD. HOBBY SUPER

Employed for suction and filtration of wood shavings and dust.

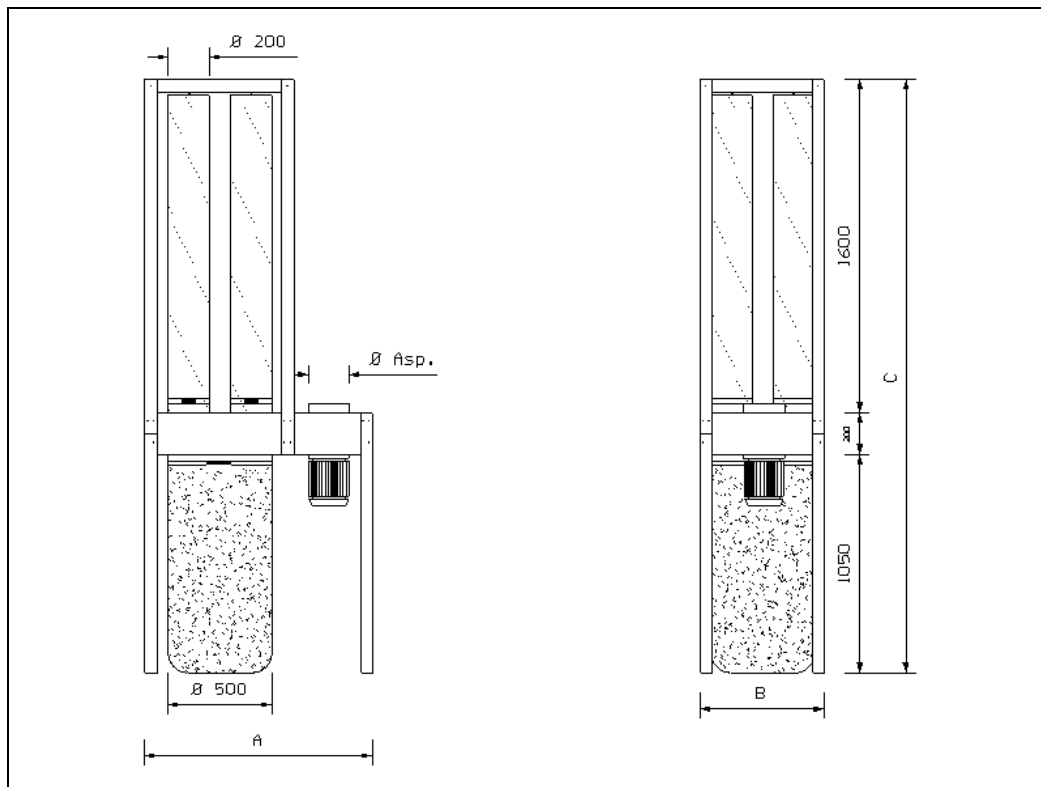

It has the same technical characteristics of mod. Hobby, with the addition of a bigger filtering surface.

Suitable for small handicraft factories and hobbies.

Furnished with filtering sleeves Ø 200 h 1600 mm, in fabric of genuine cotton 350 gr/m² with Snap Ring, electrical vane aspirator, collecting bag in nylon Ø 500 mm.

Available in several versions and powers, fixed on legs or with the lower level on wheels.

Completely dismountable to make the transport easier.
